Stay Safe and Sound with Chasin Foods!

Keeping Your Kitchen Clean with Synthetic Vinyl Gloves

Gloves have never been more of a priority in foodservice. They greatly limit the transmission of foodborne illnesses, while keeping the hands of your employees from getting messy or injured when handling food. Made with synthetic stretch vinyl, Gloveworks Blue Vinyl Gloves reduce hand strain while being free of sensitivities caused by natural rubber latex. In the age of COVID-19, you can count on Chasin Foods for the essential solutions YOU need to stay safe and successfully operating this winter!

Item #2837
